

## Dynavox: Introduction to Series 5 Software

A practical five hour hands-on workshop designed to introduce participants to editing the Series 5 software. This workshop will cover:

- Basic Overview of the Device
- What comes with a new device
- Loading personal vocabulary
- Exploring the device including the various page sets available
- Setting up a new and choosing a page set
- Basic modification of buttons
- Overview of basic behaviours
- Overview of Interface Features and locking down the menu bar if necessary
- Backing up to a USB storage device
- Calibrating
- Searching and working with existing pages
- Linking pages to buttons
- Importing photos into the digital image pages and set up vocabulary around the digital image pages
- Creating a new popup and overview of available templates
- Using the MP3 pages

If possible participants should bring a laptop computer with the Series 5 software installed
